

**THE MUSEUM OF
MODERN AND
CONTEMPORARY
ART**

The Museum of Modern and Contemporary Art of Trento and Rovereto (MART) is a museum centre in the Italian province of Trento. The main site is in Rovereto, and contains mostly modern and contemporary artworks.

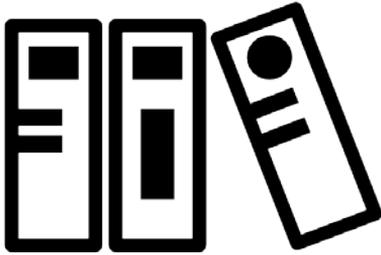

THE PROBLEM

The MART of Rovereto has a total area of 14,500 m², 1,700 m² of which **dedicated to storage**.

The Museum of Modern and Contemporary Art houses a collection of over **17,000 works of art** of the 20th century on display in rotation.

Unfortunately, the Museum doesn't have enough space to display all of them. For this reason, **having an efficient archive system is essential in order to preserve the integrity of the works of art** and, at the same time, **maximize the available space**.

KEY CHALLENGES:

- Not enough space available to archive the increasing number of artworks
- Deterioration of paintings
- High operational costs
- High value of artworks

THE SOLUTION

In order to ensure that the inestimable cultural heritage is not altered throughout years, the Museum of Modern and Contemporary Art decided to opt for the mobile shelving system **COMPATTA Light**.

Sliding units operated manually with a handwheel run reliably and easily on rails set on runner boards. Thanks to **special shelving, designed and realized for paintings**, the mobile bases **COMPATTA Light**, compared to traditional static shelving, are able to **offer up to 80% increased storage capacity in the same footprint**.

TECHNICAL DATA:

Model	Mechanical handwheel
Items	Paintings
No. of bases	40
Maximum load for base	5,400 kg
Dimensions (WxDxH)	6,508 x 310 x 2,768 mm
Archive capacity	681 m ²

 **compatta** Light
