

LEASING COMPANY

A leasing company is the legal owner of the goods, but ownership is effectively conveyed to the lessee, who incurs all benefits, costs, and risks associated with ownership of the assets.

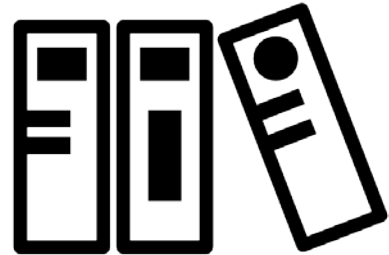

THE PROBLEM

The financial institutes' archives keep an **important amount of sensitive and very important information**, which is constantly increasing due to their daily activities.

It is impressive the number of documents that every day the various departments produce.

For this reason, the **main problem was not only to comply with the regulations in force but also to exploit to the maximum the available space for storage.**

KEY CHALLENGES:

- An increasing number of paper documents
- Regulatory requirements
- High-value of the archived information

THE SOLUTION

For its Prato site, in Italy, the Leasing Company has chosen the mobile shelving system **COMPATTA Light** with manual handwheel handling, to archive binders and paper documents.

Thanks to this solution, the Company has saved up over 50% of floor space with same amount of archived paper documents.

In order to easily and quickly identify the right aisle, the front panel of each mobile base has been equipped with a label holder.

The desired aisle is opened by **turning the hand-wheel placed centrally on the frontal panel**, in the desired opening direction.

TECHNICAL DATA:

Model	Manual Handwheel
Items	Paper documents
No. of bases	9
Maximum load for base	8,000 kg
Dimensions (WxDxH)	5,440 x 845 x 3,860 mm
Archive capacity	1,200 Im
