

THE STATE ARCHIVE OF BARI

The State Archives of Bari is the repository of documents and archives of public ownership in the city of Bari.

THE PROBLEM

The State Archive of Bari preserves an important historical - cultural heritage consisting of paper and digital documents that testifies all the stages of the history of the city.

The saturation of the available space made very difficult the archiving of all documents and, for this reason, in 2007 the Management decided to move the State Archive of Bari to a new building, bigger and more in line with the storage needs of the institution.

The *Cittadella della Cultura*, built in the early 20th century as a slaughterhouse and municipal fish market, has been identified as suitable to house the State Archive together with the National Library 'Sagarriga Visconti-Volpi'.

KEY CHALLENGES:

- Not enough space available to archive the increasing number of documents
- Not adequate storage condition
- High operational costs
- High value of archived documents

THE SOLUTION

In order to exploit the available vertical space to the full, 212 motorized mobile bases **COMPATTA^{Light} DUPLEX** have been installed in the new building.

The **COMPATTA^{Light} DUPLEX** is composed of two levels of mobile shelving mounted on the same base unit, while access to the second level is provided by fixed walkways over which the shelving runs.

DUPLEX system means that all available height can be cleverly utilized, thus eliminating any possible wasted space required in the installation of costly mezzanines.

TECHNICAL DATA:

Model	Duplex Motorized
Items	Books, parchments
No. of bases	212
Maximum load for base	10,000 kg / 8,000 kg
Dimensions (WxDxH)	7,560 / 6,860 x 765 x 4,800 mm
Archive capacity	28,700 ml
